FCSIC Board of Directors Maintains Insurance Premium Rate

McLEAN, Va., June 9, 2016 — The Farm Credit System Insurance Corporation Board of Directors voted today to maintain the insurance premium assessment rate for Farm Credit System (System) banks on their adjusted insured debt at 16 basis points for the first half of 2016 and at 18 basis points for the second half of 2016. The Board also announced the continued assessment of the 10-basis-point risk surcharge on nonaccrual loans and other-than-temporarily impaired investments.

“At May 31, 2016, insured debt was \$251.6 billion, up from \$243.2 billion at year-end 2015,” said Dallas P. Tonsager, Chairman of the FCSIC Board of Directors.

“The Board raised the premium rate on adjusted insured debt because the Insurance Fund remains below the 2 percent statutory target, and we believe growth will continue in the second half of the year.” Mr. Tonsager said.

Twice a year, the Corporation Board reviews the insurance premium rate and makes adjustments, if necessary. According to preliminary results, the unallocated Farm Credit Insurance Fund level was 1.88 percent of adjusted insured debt outstanding, or \$271 million below the 2 percent secure base amount.

The Board's premium review is based on the following factors:

- An assessment of the current level of the Insurance Fund and the projected growth of insured obligations
- The likelihood of any potential Insurance Fund losses
- The financial condition of the System banks and associations
- The outlook for the agricultural economy
- Any risks in the financial environment

"The Corporation will meet again in September to provide guidance for 2017 premium assessments," Mr. Tonsager said.

The Corporation is managed by a three-member Board of Directors. In addition to Chairman Tonsager, Kenneth A. Spearman and Jeffery S. Hall serve as members of the Board.
