program integrity by ensuring that producers are unable to manipulate their unit structure by making slight changes in their farming operation to gain additional benefits from the increased subsidy.

The amendments in this rule are applicable for the 2010 and succeeding crop years for all crops with a 2010 crop year contract change date on or after the effective date of this rule and for the 2011 and succeeding crop years for all crops with a 2010 crop year contract change date prior to the effective date of this rule.

Good cause is shown to make this rule effective upon publication in the Federal Register. Good cause to make the rule effective upon publication in the Federal Register exists when the 30 day delay in the effective date is impracticable, unnecessary, or contrary to the public interest.

With respect to the provisions of this rule, it would adversely affect program integrity to delay its implementation. If FCSIC is required to delay the implementation of this rule 30 days after the date it is published, the provisions of this rule could not be implemented until the next crop year for those crops having a contract change date prior to the effective date of this publication. Because a delay in the effective date of this rule is contrary to the public interest, good cause exists to make these policy changes effective upon publication in the Federal Register.

Crops insurance, Reporting and recordkeeping requirements.

Interim Rule
Accordingly, as set forth in the preamble, the Federal Crop Insurance Corporation amends 7 CFR part 457 as follows:

PART 457—COMMON CROP INSURANCE REGULATIONS

1. The authority citation for 7 CFR part 457 continues to read as follows:
Authority: 7 U.S.C. 1506(l), 1506(o).

2. In § 457.8 paragraph (b) is amended by revising the definition of “Enterprise unit.”

The revised text reads as follows:

§ 457.8 The application and policy.

* * * * *

(b) * * *

1. Definitions.

* * * * *

Enterprise unit. All insurable acreage of the insured crop in the county in which you have a share on the date coverage begins for the crop year.

1. To qualify, an enterprise unit must contain all of the insurable acreage of the same insured crop in:

(i) One or more basic units that are located in two or more separate sections, section equivalents, FSA farm serial numbers, or units established by written agreement; or

(ii) Two or more optional units established by separate sections, section equivalents, FSA farm serial numbers, or as established by written agreement; and

2. At least two of the sections, section equivalents, FSA farm serial numbers, or units established by written agreement making up the basic or optional units in paragraph (1) of this definition must each have planted acreage that constitutes at least the lesser of 20 acres or 20 percent of the insured crop acreage in the enterprise unit.

Federal Aviation Administration

14 CFR Part 97

[Docket No. 30670 Amdt. No. 3324]

Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) and associated Takeoff Minimums and Obstacle Departure Procedures for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, adding new obstacles, or changing air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: This rule is effective June 15, 2009. The compliance date for each SIAP, associated Takeoff Minimums, and ODP is specified in the amendatory provisions.

The incorporation by reference of certain publications listed in the regulations is approved by the Director.
